**Center for Ultrasound Research and Translation (CURT)**  
**Application Form**

Please complete this form and email as an attachment to [CURT@MGH.harvard.edu](mailto:CURT@MGH.harvard.edu), with your CV included, with the subject line: CURT Research Training Application.

First Name: Middle Name: Last Name:

Gender: Male Female Other

Nationality:

Current residence:

Current postal address:

Email address:

Your terminal degrees:

Where did you get your degree?

Preferred research fellowship period: 1 year 2 years

Please describe your research experience.

Please describe your current interest and goals.

Please describe how you will be supported financially during your research fellowship. Please note, CURT asks for proof financial access to US\$50,000 a year, while the US Embassy generally requires US\$35,000 annual to grant a J-1 visa.

---

If you need a J-1 visa to attend this program, any dependents that will accompany you must be disclosed before MGH begins to process your visa documents. Failure to notify CURT of dependents in advance may result in lengthy delays or denied visas. Please note that dependents include legally married spouse and unmarried children under the age of 21. Should your marital status or number of children change between application and acceptance, you will need to notify CURT as soon as possible before visa document requests are submitted. Will you have dependents?

What is your current position and institution?

Please confirm that your current institution is aware of your application and will approve of your time abroad if accepted into our research training program.

Please describe the approval process of your current institution for you to attend this program. This includes how long approval takes, if approval depends on an offer letter from this training program, etc. Please be accurate as this impacts starting dates, processing time for visa documents, and hospital credentialing.
